2016 Smelt Harvest

The Fish Committee's first documented smelt harvest in April 2015 was a success on many fronts.

153,600 predators (smelt) were removed from the lake. Seven volunteers joined the Fish Committee.

Hearing of our successful harvest GLPOA was invited to the FOCA Fall Seminar and was asked to speak on how we conducted the harvest. The purpose was to show other Lake Associations how to address this or similar issues.

The executive editor of Cottage Life magazine was in the attendance while we gave our presentation. Being impressed with our story they contacted GLPOA to get further details. Cottage Life has plans on placing an article in their March edition of the Cottage Life magazine. GLPOA has also partnered with the NAW Recreation Committee and Cottage Cup of Golden Lake and are planning to conduct a smelt fry in late spring 2016. We are still in the planning stages with details to follow.

Harvest will take place when smelt are running in early to mid April. If you would like to get involved in the Harvest please contact Glenn Bingham at
