

OPERATION OF PRIVATE WATER SUPPLIES DURING/AFTER FLOOD

If your property has been affected by flooding or you have concerns about your private well's water quality; DO NOT use your private water supply until you have it tested. It could be contaminated and unsafe for human consumption. Please contact the Renfrew County Health Unit through the below contact information in regards to testing procedures. Alternatively, you can visit their website at <http://rcdhu.com/healthy-living/safe-water/> for further guidance.
