

President's Message

RON RIMMER

Wow! What a winter. I may have to recant my cheery winter wonderland article in the winter newsletter. I don't recall as much snow as we received this winter. Anyway, enough with winter; spring has sprung.

As I write this, the freshet has not yet fully begun. The Minister of Natural Resources (MNRF) John Yakabuski, issued a one-time Ministerial Order to lower the water levels in Round Lake below the licensed Lower Limit by 20 cm, in order to provide more capacity in the Round Lake reservoir.

The spring melt was very slow this year so at time of writing we are not sure of the impact of this measure. It is a good first step in better controlling our waterway and flood zones. I would like to give a shout out to Minister Yakabuski, all of the stakeholders and the three townships for their dedication to this important cause.

Our Lake Steward, Glenn Bingham is involved and knowledgeable on this matter and works on this initiative all winter. My task is to liaise with the local municipalities and the press during the winter and spring.

As usual we have a full slate of activities planned for this summer. These events

TOP ROW, L TO R: Chris Hamilton, Rick O'Brien, Glenn Bingham, Ron Rimmer, Don O'Reilly and Bill Gardner. BOTTOM ROW, R TO L: Kate O'Hara, Sandy Nash, Natalie Corbin, Allison Wood and Theresa Rasp. ABSENT: Jeff Raisbeck

couldn't be carried out without a great team on your Board of Directors. This is my first year as President of GLPOA and I must thank the leadership of Don O'Reilly, our former President. Under Don's leadership we produced manuals for various committee Chairs, New Directors' Manuals, Organization Charts and had a full slate of activities. Don now assumes the role of Past President and as such, acts as an adviser to the executive and the board.

Any organization cannot be successful without dedicated volunteers. As I said, we are blessed with a very hardworking and

talented Board. They do so much behind the scenes. Billboard advertising, water quality, hazard marking, flood monitoring, website and Facebook administration, canvassing, organizing activities and our annual AGM. They also solicit our boundless sponsors for gifts and prizes for all of these events, no small task in itself.

So, when you are out on the lake or attending one of our events don't forget to thank a volunteer, after all they are working for you and for the enjoyment of all who live and play on our beautiful lake. And river.

CLIMATE CHANGE

GLENN BINGHAM

In August 2017 I attended a seminar in Huntsville which was jointly hosted by the MNRF and the Ontario Centre for Climate Change Impacts and Adaptive Resources (OCCIAR). With the flood of 2017 still fresh in mind I listened to Canada's world-renowned Climatologist Heather Auld, who described how we got to the present condition known as "Climate Change." Heather noted that in the past governments took the NATO approach (No Action Talk Only) to science that was being presented.

I found it ironic that the day preceding the seminar, Huntsville was hit with three tornadoes. It appears that now we are all a little more aware of our changing weather patterns and that the science is being taken more seriously.

Some information and statistics to consider from the Union of Concerned Scientists, who work to ensure that the best independent science informs and motivates public policy:

- Since 2013 the amount of carbon monoxide in our atmosphere has exceeded 400 parts per million, the highest humankind has ever experienced.

- 2017 was the third warmest year in history and the 41st consecutive year with global temperatures registering above the 20th century average.
- The six warmest years of recorded history have all occurred since 2010.

We can expect more extreme weather conditions in various forms such as floods, drought, forest fires, rainfall, wind, etc. to continue. We must realize how our actions are impacting the natural balances and find a means of working and living within those balances. We must learn to adapt to climate change if we are to survive.

FISH COMMITTEE

Our Fish Committee members would like to welcome back all of our seasonal dwellers that have returned to their recreational retreats. Despite the abundance of snowfall this past winter we are pleased to announce that those that had the opportunity to engage in the activity of ice fishing were pleasantly surprised to enjoy a relatively successful catch rate. Some of our well seasoned (pun intended) veterans of the sport have reported having the best year on the frozen tundra in recent memory.

Your dedicated members of the Fish Committee remain focused on making every effort to improve not only the possibility of landing the “big one” but also in efforts to restore the biodiversity in our lake. We are all fully aware that there are many factors affecting the prey to predator ratio and we will continue to prioritize avenues to address the stresses to biodiversity. We continue to work very closely with our Pembroke MNRF contacts, as their expertise gives support and direction to our efforts and is an invaluable resource that we depend and rely upon.

We have taken the stand to promote the practice of catch and release, especially that of our Walleye population. We are pleased that the message is getting out,

Would you like your trophy catch photo on our website? Please email your photo to Chris Hamilton, glpoainfo@gmail.com. Send details such as date, size, etc.

and that more of our anglers are fishing responsibly and engaging in this practice that promotes the natural sustainability of this wonderful game fish. There are those that may argue the case that catch and release just may have a high mortality rate. Our response is if you do not practice catch and release the mortality rate is 100% and there isn't any possibility of growth or reproduction.

It may come as a surprise to our membership that water level monitoring is performed year round. The Water Level Committee has already been in communication with various stakeholders and levels of government to ensure that we are collectively prepared to deal with the 2019 freshet. In 2018 Don Bishop, a long time GLPOA member, expressed interest in becoming more active within our association and was appointed to the position as the Chair of Water Levels Committee by your Executive Committee members.

Don is a perfect fit for this position as he can draw from the knowledge and experiences acquired through his many roles in Bishop Water Technologies. As an added bonus Don has resided for thirty-four years on the north shore of Golden Lake and literally has a birds eye view of the Lake (poor guy can't even call in sick). We can almost state that Don has hit the water running and has expressed to RPG our expectations of water level management practices so that year round we can enjoy all that our lake has to offer.

Many thanks to Don for stepping up for this position. Welcome to the team, Don!

WATER QUALITY

Dependent upon favourable weather conditions, all reasonable attempts are made to take samples in an effort to monitor conditions, to determine trends and take actions if unacceptable results are obtained. This coming year water quality monitoring will increase with three new members participating in two separate regimes. Max Hammer will now perform sampling practices through the MNRF Lake Partner Program. Tammy Joudrey and Andy Trafford will now literally come on board and participate with our traditional sampling practices with analysis being performed by Caduceon Labs out of Ottawa. Our Lake has always been well within acceptable standards and with confidence we expect to enjoy a healthy lake for many years to come.

We have responded to issues such as suspected blue/green algae blooms but within short notice samples were taken and sent to the MOECC for analysis. Results indicated the samples taken were not cyano bacteria (blue/green algae) and in fact there has never been a confirmed blue/green algae bloom in Golden Lake.

SMELT HARVEST

If the ice fishing successes are any indication of a turn around, we hope to have an equally successful smelt harvest. Once again we are pleased to announce our fourth annual Smelt Fry will be taking place at the ever popular Sands with food preparation by the staff of The Cottage Cup. We cannot thank our valued sponsors enough. The event will be held on Saturday June 15 and we will pray for good weather and of course your much needed support. We have made plans to make the event even more enjoyable with additional door prizes, and for entertainment you will hear the very talented local artist Richard Martel.

Further details of the event will be provided as the date approaches.

Membership Update

In fair or foul (read high water) weather, our members have given us reason to believe in our mission as an association — and that our strength is not just in numbers but also in our GLPOA membership community.

You are the reason we have a great group of membership canvassers covering every road around the lake and up the river. You are the reason we have a great group of volunteers looking after your lake interests through our lake stewardship committee that takes care of water testing, shoal marking, monitor of water levels, and actions of the fish committee. You are the reason our communications committee is able to share with membership a wealth of information in our newsletter, on our website, and on our Facebook page. You are the reason our social events (poker run, smelt fry, volunteer appreciation dinner) are so successful. And YOU are the reason our Annual General Meeting is recognized by so many as a very professional and informative event.

We finished up our 2018 year with 465 members, and we are grateful for each and every one of you.

We want to thank every property owner who signs on as a member of our association — whether it's a new or renewing membership. We also want to thank every volunteer who helps us sustain the membership numbers for GLPOA. We truly appreciate your participation on so many levels. Ours is a great family to be a part of. Get ready to sign on with us for another year of GLPOA activities we have planned for you. It's the best \$20 you'll ever spend!

TREASURERS REPORT

The Financial summary for the twelve month operating period ending December 31, 2018, shows a starting balance on January 1, 2018 of \$12,809.83, revenue of \$18,886.69, disbursements of \$15,109.69, and a balance on December 31, 2018 of \$16,586.83. All records are given to an outside accountant for review and a final report will be given at the Annual General Meeting July 6, 2019.

Annual General Meeting

JULY 6, 2019 ■ KILLALOE PUBLIC SCHOOL ■ 9 am to 12 noon

Meet your Executive / Directors and Neighbours Golden Lake Property Owners Association

Arrive at 8:30 a.m. for coffee, tea and baked goods provided by The Cottage Cup, Golden Lake, one of our corporate sponsors.

Please join us for an informative and fun morning with your fellow neighbours. Your support is vital to the success of the Golden Lake Property Owners Association. You will also have an opportunity to win lucky draw prizes, donated by our local companies and sponsors!

SHOAL AND CHANNEL MARKING

Safety on our Lake is of paramount importance to the Golden Lake Property Owners Association. Our Hazard marking program provides the essentials to help keep boaters and water enthusiasts safe while having fun on our lake. Last year only a few incidents involving water hazards were reported. This is a great accomplishment considering the increase in boating activity our lake and river has seen over the past few years.

Currently, there are over 50 marker buoys, which are distributed around Golden Lake and the Bonnechere River to warn boaters of water hazards, channels and rocky shoals. Our high-quality marine buoys are manufactured as a single piece of extra strength, flexible vinyl with a reinforced rope-hold. These buoys are tough, durable and expensive. Strong winds and large wakes from boats may cause the buoy to break free. We encourage all boaters and property owners to retrieve any buoys that have broken loose from their anchors and inform the Association where we can pick them up.

The Golden Lake Map has recently been revised with the locations of many known water hazards. Golden Lake Property Owners Association takes great pride in marking as many potential hazards as possible; however, does not guarantee or ensure the accuracy of each and every hazard location. Great care, safe boating practices and good judgement should always be used in navigating Golden Lake and the Bonnechere River. The Government of Canada has a free download on the Marine Transportation website. The Discover Boating app downloads to your smartphone and gives you information about the key rules, guidelines and best practices that will help you and your family stay safe on water. Have a safe summer on our beautiful Lake!

Thank you to our volunteers...

CAROLE HAMILTON

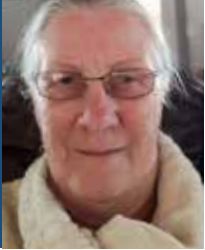

CAROLE HAMILTON
ROCKY POINT DRIVE

Carole has been a three-season resident of the lake for over 40 years, enjoying the beauty and tranquility of cottage life with her family. Now recently retired from 36 years in the health care industry, she is looking forward to spending even more time at the lake, and meeting new people in the area.

Carole has volunteered with GLPOA for the past four years, being involved with the annual Poker Run, AGM, Smelt Fry and Volunteer Appreciation dinner. Carole also loves helping out and meeting people through canvassing — one of many benefits of volunteering for the GLPOA.

CLARE ADDISON

CLARE ADDISON
GOLDEN LAKE VILLAGE

Golden Lake found me via Ottawa Valley Real Estate back in 2011. I quickly joined the GLPOA and learned what it is to be involved with a wonderful group of people working for the benefit

of all of us that live/cottage around the lake.

My favourite “job” was working the annual poker run with a well organized group where everyone has tasks to complete, but has fun at the event. The poker run and its group of volunteers are memories that will be with me for many years. Clare is moving from the lake this May and GLPOA wants to recognize and thank her for being a great part of the volunteer group for all her time here. We will miss her.

Corporate Sponsorship

It all started with an initiative to raise funds for Golden Lake’s much needed shoal markers. A gathering of entrepreneurial minds came together in 2007 to create what today has ended up being the extremely successful Waterway Marking Program supported by GLPOA’s Corporate Sponsors. Without this program, sponsors and ‘boat loads’ of volunteers, we on Golden Lake and the Bonnechere River would not enjoy the comfort of safe boating.

One component of the Waterway Marking Program is our informative billboards. These billboards are located at Golden Lake and Bonnechere River’s prominent boat launch sites — Island View Drive, Bonnechere Lodge, Deacon Bridge and Tramore Road. Unfortunately, over the past several years, Mother Nature has left these structures looking tired and in need of repair. That being said, we are excited to announce that our billboards have been redesigned and are scheduled to be replaced this coming spring!

Not only will our new billboards proudly display our corporate sponsors, but will also include a revised detailed map of Golden Lake / Bonnechere River. The new signs will have a designated area for upcoming GLPOA events, solar lights for better night viewing and at our Deacon site, boat safety protocol.

A special acknowledgement goes out to Bryan Fraser Contracting and Nature of Design for not only being long time GLPOA corporate sponsors themselves, but for thoughtfully donating countless hours of labour and materials. Without their generosity the billboard rebuild project would not take place.

As mentioned, GLPOA’s Waterway Marking Program is fully funded by our forty-four Corporate Sponsors. These businesses and their contact information can be found on our billboards, in the spring newsletter and GLPOA’s informative website goldenlake.co. We encourage all to patronize these local businesses. Their support is not something we take lightly and is very much appreciated by everyone connected with our association, community and visiting guests to our beautiful lake and river.

WEBSITE UPDATE

After restructuring the website a year ago, the communications committee is happy to report that the revamped site has received great reviews from many of our readers. Ease of use, better support for mobile devices, and quicker navigation to items of interest topped the list of improvements noted in the comments we received.

Thanks to all who took the time to comment on the new website... we always appreciate the feedback, and are continually looking for ways to improve. This past year, we’ve updated the website in a number of significant ways:

- Almost doubled the number of active links on our home page, making it quicker to get to items of interest.
- Added the flood water level gauge to the home page, as advertised at the AGM last year. This will appear during the spring freshet period.
- Renovated our “sponsors” page, including logos for each business with direct links to each of their own web pages.
- More than doubled the links in our “Links” page, which point to other sites and organizations of interest to our community.
- Partnered with our Fish Committee to sponsor and promote the “Catch and Release Photo Contest”

For those who haven’t yet visited our site, you can check it out at goldenlake.co. We’d love to hear from you with any suggestions you may have for more updates or new features... just send us an email at glpoinfo@gmail.com.

The Golden Lake Property Owners Association
presents its...

11th ANNUAL POKER RUN

**OVER
\$2500
IN PRIZES!**
Cash and gift
certificate
prizes valued
up to \$300

SATURDAY AUGUST 3, 2019

Join us for a fun day!

We will be awarding prizes for best decorated boat. So use your imagination, have fun and win great prizes!

There will be a kids' fun centre with face painting, games and more!

Finish line at The Sands on Golden Lake
Same-day registration 8:00 am at The Sands
Everyone welcome!

FEE: \$25 PER PERSON, includes entry to the Poker Run, a chance that your winning hand will earn you a great prize and a delicious lunch. There will be musical entertainment at the Sands when you arrive back for lunch. If you have questions, Please contact Sandy Nash, 613-717-2894, or Carole Hamilton, 613-889-1759.
