

Golden Lake / Bonnechere River 2022 Fishing Survey

Thank you for taking the time to participate in this Fishing Survey.

The Golden Lake Property Owners Fish Committee is working in partnership with The Algonquins of Pikwakanagan, and the MNRF to monitor and enhance fishing on Golden Lake & Bonnechere River. This Angler's Survey is one of the activities that will help us to learn more about what species are being caught in these waters and help us to improve the biodiversity of the lake.

Please return the completed survey to us even if you do not catch any fish. A record of the number of hours you fished and the fact that you did not catch anything is useful information for us to have.

You can return the completed form to us in one of three ways.

- Return it to the drop box at the location where you picked it up or at any of the boat launches on Golden Lake

- Mail it to:

Golden Lake Property Owners Association
Attn: Fish Committee
P.O. Box 99
Golden Lake ON K0J 1X0

- Take a photo or scan of your completed survey and email it to us at glpoainfo@gmail.com

We encourage you to practice catch and release and welcome any photos of your catch as well, check out our Facebook page for any contests relating to the photos of your catch!

Wishing you safe and productive fishing. Enjoy your day on the water!

2022 GLPOA Fish Committee
